

Hassocks Priorities Statement Survey

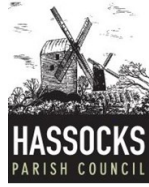

Vision

1. Please indicate the extent to which you agree/disagree with the following:

In 2033 I want Hassocks to be...

	Strongly agree	Agree	Neither agree or disagree	Disagree	Strongly disagree
A friendly, welcoming place with many opportunities for people to meet, socialise and celebrate special events.					
A resilient place that has adapted to the challenges of climate change by reducing the risk of flooding.					
A biodiverse place that is rich in wildlife.					
An inclusive place that meets the needs of all in the community – young, old, families and those with disabilities.					
An accessible place where all day-to-day facilities and services can be accessed with less reliance on the private car.					
An economically vibrant place with good shops, strong local businesses and local food production.					
A place that retains its character as a group of villages with open green spaces within and surrounded by beautiful countryside.					
An innovative place where opportunities have been taken to generate renewable energy to reduce the reliance on fossil fuels and buildings have been built or retrofitted so they are energy efficient and zero carbon.

Priorities

3. On a scale of 1-10 how would you prioritise the following to achieve this vision? (1 being low and 10 being high)

	Low = (1) High = (10)
a. Protection and enhancement of our existing green spaces.	
b. Creation of a new country park.	
c. Creation and enhancement of wildlife corridors connecting existing nature-rich areas.	
d. Planting of new trees where appropriate and protection of existing woodland.	
e. Implementation of new local renewable energy schemes (such as small scale solar developments or wind turbines).	
f. Measures to enable prevention and mitigation of flooding.	
g. Re-using and recycling more of our waste including food waste.	
h. Provision of new homes that young people and families can buy/rent.	
i. Provision of accommodation that meets the identified needs of older people and those with disabilities to enhance/support independent living.	
j. New developments designed to be attractive and sympathetic to landscape and built environment.	
k. New developments required to create a more biodiverse and edible landscape with native fruit trees and herbs.	
l. New developments designed to meet the highest standards in energy-efficiency, renewable energy and low carbon impacts.	
m. Location and designing of new developments with easy and safe access to services and facilities without relying on the private car.	
n. Introduction of measures to slow traffic and prioritise pedestrian and cyclist safety.	
o. Creation and improvement of safe walking and cycling routes to schools, shops and facilities for all ages and abilities.	
p. Air pollution levels monitored across identified hot spots and actions taken to reduce pollution.	
q. Provision of electric charging points, including for visitors and dwellings with no off-street parking.	
r. Improvement to the frequency and connectivity of bus services, particularly to nearby villages, towns and across the County border.
